Electric Power Supply Rules and Conditions

- Every 12 sq m of exhibition space includes a CEE 16A single phase outlet - 1.5 kW.
- The Congress Center is not responsible for voltage fluctuations or power failure to any service line.
- The supply of additional electrical power is subjected to the technical possibilities of the booth's location. Congress Center Management reserves the right to limit the amount of power granted on the basis of power availability.
- The Congress Center is not responsible for any equipment installed beyond the provided power supply position. This equipment must be installed in observance of the CEI laws 64-8 and the DPR 81/2008.
- I Cotone Congressi Genova reserves the right to authorise its electricians to disconnect, at any time, wiring or wired equipment constituting code violations. **All electrical equipment including lighting must be grounded.**
- Fee for installation and consumption of electric power not foreseen initially will be invoiced on a lump-sum basis directly to the exhibitor. This fee covers the duration of the exhibition opening time.
- The Congress Center reserves the right to adjust the above indicated rate following any possible increases issued by power supplying companies and occurring after the order form has been handed in.

Please Note

- **Please submit your order no later than May 31st 2019.**
- **Full payment is due before the event and will be possible via bank transfer upon receipt of the confirmation email and payment instructions.**
- **Service is not guaranteed in case of non-payment.**
